

AMATEUR BOXERS GRADUATE INTO THE PRO RANKS

Boxing Among the Leading Athletic Clubs in the New York District Is Reported on the Increase.

New York, Oct. 18.—Amateur boxers are being graduated in ever increasing numbers to the professional ranks.

This is particularly true of the Metropolitan district which in recent years has contributed several amateur boxers to the professional ranks. It is reported that a permanent footing in the ranks of the professional boxers.

With the increasing popularity of boxing among the leading athletic clubs of this district it is expected that during the next few seasons there will be further and more impressive additions to the ranks of other professional boxers. Indications point to the most active winter in the history of amateur boxing, both in this city and throughout the country, and the support sport receives from the general public is such that pretentious tournaments are constantly being arranged.

Those amateurs who decided to follow the boxing game into its higher flights usually prove able pupils and easy to handle from a business standpoint. No less a promoter than Tex Rickard has stated that he always likes to talk terms with ex-amateur boxers and there is seldom any difficulty in arranging the financial side of the bouts in which they are to engage.

That those who graduate from the amateur to the professional ring have the necessary training, skill and intelligence to succeed is proved by the mention of a few who have made boxing history in recent years. These are: Harry Greb, Joe Lynch, Dave Rosenberg, Augie Matner, Pete Zieve, Nat Pinous, Sam Mossberg, Willie Singler and others well known boxers who received the groundwork of their ring education in amateur bouts.

REQUESTS COURT TO DETERMINE PATERNITY OF EX-WIFE'S CHILD

St. Louis, Oct. 18 (By the Associated Press).—Herman Henry Laumeier, wealthy real estate dealer, today filed a petition in circuit court, asking the court to determine the paternity of the child of his former wife. He expressed the belief that he is not the father of the child, a boy, and adds that he is compelled to support the youngster.

Mr. Laumeier, who is 47 years old, declares he separated from his wife the day after they were married in August of 1913, and that the child was not born until 23 months later.

He cited the testimony in his wife's divorce case, in which he alleged she testified that the child was the result of a cohabitation of man and wife coaxed the day after their marriage, and that no children were born of the union.

BEATTY IN FAVOR OF ENGLAND ABIDING BY NAVAL POWER TREATY

London, Oct. 18.—Great Britain should fully maintain the standard of naval power laid down by the Washington conference, Admiral Earl Beatty, who received the honorary degree of doctor of laws at the University of Leeds today, declared in an address.

The world recognizes that the government's acceptance of that standard was unimpeachable evidence of the empire's desire for peace, he said.

The standard of strength adopted at the Washington conference were those which offered the brightest prospects for peace, he declared.

WILEY TO MEET GARCIA

Milwaukee, Wis., Oct. 18.—Stewart McLean, St. Paul fourthweight boxer, is to meet Frankie Garcia, an eastern boy, in a ten-round bout here on October 27, the weight to be 125 pounds. It was announced today.

UNCOMFORTABLE AFTER MEALS?

Then Try a Pinch of Black-Draught -- This White-Haired Alabama Lady Says It Helps Her.

Dutton, Ala.—In recommending Theodore's Black-Draught to her friends and neighbors here, Mrs. T. F. Parks, a well-known Jacksonville lady, said:

"I am getting up in years; my head is pretty white, I have seen medicines and remedies come and go, but the old reliable came and stayed. I am talking of Black-Draught, a liver medicine we have used for years—one that can be depended upon and one that will do the work."

"Black-Draught will relieve indigestion and constipation if taken right, and I know, for I tried it. It is the best thing I have ever found for the full, uncomfortable feeling after meals."

"Sour stomach and sick headache can be relieved by taking Black-Draught, aids digestion, also assists the liver in throwing off impurities. I am glad to recommend Black-Draught, and do so to my friends and neighbors."

DAREDEVIL FLYERS RISK NECKS FOR PULITZER TROPHY

Scores of aviators annually risk their lives in the air races for the famous Pulitzer trophy and substantial cash prizes.

WORST OF THE FARMER'S HOUR OF TRIAL OVER

Secretary Wallace Says the Administration Is Doing Everything Possible to Aid Agriculture.

Washington Court House, Oct. 18.—What the Harding administration and the republican congress have done for the farmer was reviewed in a speech here today by Secretary Wallace of the department of agriculture, who declared that for the past 18 months the energy of the federal government has been so directed as to give the fullest possible measure of relief from the previous periods of agricultural depression.

Much remains to be done, the secretary said, including the attainment of higher prices and lower freight rates for farm products, but he asserted that the worst of the farmer's hour of trial was over and that conditions everywhere are bound to continue looking up.

Among the legislative enactments of the last congress, the speaker enumerated these eight as "of major importance" to the farming industry:

- "The War Finance corporation act.
- "Increased capital of the farm land banks.
- "Modified interest rate on bonds of joint stock land bank.
- "Agricultural representation on federal reserve board.
- "Packers and stockyards act.
- "Grain futures act.
- "The act to protect farmers' cooperative associations from improper prosecution."

Among the things which remain to be accomplished, Mr. Wallace said, are adjustment of freight rates and some arrangement by which the necessary industries will not be interrupted by disputes between labor and capital.

AMUNDSEN'S FLIGHT WILL BE SUCCESSFUL CAPTAIN PREDICTS

Seattle, Wash., Oct. 18.—Captain Roald Amundsen will make a successful flight from Wainwright, Alaska, across the north pole next spring, predicts Captain C. S. Cochran, of the coast cutter Bear, which returned here from a long voyage into the Arctic ocean. Captain Amundsen, who left here in the schooner Maud in June, spent much time aboard the Bear in the Arctic.

Ice in the Arctic is the worst since 1906, Captain Cochran reports.

Captain Amundsen intends to make a trip to Nome, Alaska, this winter by dog team and to return to Wainwright in time to start his flight in May or June with Lieutenant Oskar Omdahl, he told Captain Cochran.

A passenger on the Bear was E. T. Hendley, one of a party sent north by the Colorado museum at Denver.

AVERAGE LEVEL OF WHOLESALE PRICES SHOWED A DECREASE

Washington, Oct. 18.—The average level of wholesale prices in September, the department of labor reported today, was about 1-1/3 per cent lower than in August. The index number, representing comparative price levels of 494 different commodities, dropped from 155, as determined in August, to 153 in September.

Fuel and light materials were chiefly responsible for the reduction, the estimate said, having dropped 19 per cent during the month. Farm products, building materials, textiles and clothing all showed small declines.

EUROPE NEEDING AMERICAN GOODS BUT CANNOT PAY

International Harvester Company Official Discusses Conditions Existing Among Nations.

Chicago, Oct. 18.—Americans who have made the most money in European trade during the last four years are those who have done the smallest amount of European business, George A. Ranney, treasurer of the International Harvester company, declared in an address today before the National Association of Farm Equipment Manufacturers on European conditions.

He said conditions in Europe have improved but that, as well as an agreement on debts and indemnities, will be needed to restore normal conditions.

Taking Europe as a whole, he said, "the conditions are not favorable for American exports, except in the form of raw materials or foodstuffs, and even as to these conditions, Europe's purchasing power is limited."

The great barrier to commerce with Europe today, he said, is the financial inability of the consumer to buy. American farm implements manufacturers have asserted have a line of goods both needed and desired by Europeans, the means of manufacturing them on a sound business basis and the organization properly to represent them to European markets, but consumers cannot pay.

Russia, he said, must be capable of recognition by other countries before American manufacturers can hope to resume trade relations in this once profitable field. Discussing the decreased purchasing power of Russian and German money, he asserted that the main question in Germany is one of reparations and until some agreement with the allies is reached little improvement in the financial or economic conditions of the country can be hoped for.

GEM MARKET HAS NOT BEEN INFLUENCED BY SALES IN PAST YEAR

New York, Oct. 18.—Austrian and Russian jewels worth \$300,000,000 to \$400,000,000 francs have been purchased during the past year by middle class men and women in America and Europe without influencing the price tendencies of the gem markets, Pierre Cartier, head of the Cartier jewel firm, declared today following his return from a trip abroad.

Jewels are considered the staple medium of exchange in Europe today because of the fluctuation of currencies, Mr. Cartier said.

The jewels which he found the greatest market have been pearls, diamonds and colored stones which formerly belonged to the nobility and the imperial houses of Austria and Russia. Grand dukes and other refugees, he said, personally disposed of their treasures in Paris.

The precious stones confiscated from religious edifices have made little impression on the market because they were of lesser value, he said.

MEETING TODAY TO BE 'PACKED' ENEMIES CHARGE

Carlton Club Conference at London Will Not Be Representative; Political Activity Is Unabated.

London, Oct. 17 (By the Associated Press).—Development of dissatisfaction on the part of conservative members of the Carlton club meeting today, the talk of the proposed Carlton club meeting tomorrow, was the only new feature today in the political crisis.

The meeting is important over the limitation of the meeting to members of the house of commons and the exclusion of the conservative peers, it being contended that such a meeting would not be representative of the party as a whole.

Moreover the meeting is regarded as an attempt to forestall the annual conference of the conservative party in mid-November; hence the executive committee of the National Unionist association called a special meeting today. Sir George Younger, chairman of the party, presiding, and unanimously adopted a resolution instructing the committee to summon forthwith an emergency conference of the party.

This emergency meeting is much more likely to reveal the complete extent of the split in the conservative party over the question of Mr. Lloyd George's leadership than is the Carlton club meeting.

Political activity is unabated and gossip concerns the possibility, should parliament be dissolved, of holding general elections on armistice day, November 11.

BRINGING UP FATHER.

NON-EXPLOSIVE GAS AVAILABLE WITHIN A YEAR

From Eight to Ten Million Feet of Helium Will Be Ready for Use, Patrick Reports to Weeks.

Washington, Oct. 18.—From eight to ten million cubic feet of non-explosive helium gas will be available within a year for the inflation of army dirigibles, Major General Patrick, chief of the army air service, reported today to Secretary Weeks. The war secretary conferred personally with General Patrick in his effort to ascertain just what steps had been taken or would be necessary to avert, through the use of helium instead of hydrogen, such accidents as the destruction by fire of the dirigibles Roma and the C-2.

General Patrick explained that the envelopes of the dirigibles now in service permitted helium gas to escape, while they would contain hydrogen gas for a considerable time. At the present time, it was said, the army has only one million cubic feet of helium on hand.

The four new army dirigibles now in process of construction, it was explained, would be equipped with envelopes made of materials different from those on craft now in service and of a texture which would conserve the gas. Three of the projected vessels, Secretary Weeks said, would be of the same type as the C-2, while the fourth would be much larger.

General Patrick also informed the secretary that the Fort Worth, Texas, helium plant had recently resumed operations and he estimated that within the next year it would produce from eight to ten million cubic feet.

MAYFIELD ON STAND IN HIS OWN BEHALF IN INJUNCTION CASE

Corpus, Texas, Oct. 18 (By the Associated Press).—Earle R. Mayfield, railroad commissioner and democratic candidate for United States senator, took the witness stand at 4:30 o'clock this afternoon in the injunction suit brought to keep his name off the ballot. He was on the stand when court adjourned until tomorrow.

Luther Nickels, leading counsel for the plaintiff, seeking to keep Mayfield's name off the ballot, questioned the candidate. This questioning concerned an item of \$200, which is alleged by the plaintiffs, was collected by Mike McNamara of Graham, Texas, and sent to Mr. Mayfield, to be used in his campaign.

Mr. Mayfield declared he had never received such a sum or that he had ever authorized or requested Mr. McNamara to collect funds for his campaign.

The suit to make permanent the temporary injunction keeping Mr. Mayfield's name off the ballot, is being heard before a jury of six before Judge J. W. Hawkins, Scarbrough, who granted the temporary injunction. Selection of the jury was completed this afternoon.

No more Rheumatism

"Suffering has gone from your face, mother!"

S. S. S. is the Great Builder of Red Blood-Cells and Rheumatism Must Go Just Try It!

"Rheumatism? No! No, indeed, it's all gone, every bit of it! It's sunshine and joy for me now for the first time in years. I feel a wonderful glow again in the free motion I used to have when my days were younger. I look at my hands and think of the aches and swellings they used to have. I bend way over to the floor. I haven't been able to do that in many years. I can thank S. S. S. for it all. It was a rising sun of joy and liberty. Brothers and sisters in misery, do not close your eyes and think that health, free motion and strength are gone from you forever! It is not so. It is here and now for all of you. S. S. S. is waiting to help you. There is a reason why S. S. S. will help you. When you increase the number of your red-blood cells, the entire system undergoes a tremendous change. Everything depends on blood-strength. Blood which is minus sufficient red-cells leads to a long list of troubles. Rheumatism is one of them. S. S. S. is the great blood-cleanser, blood-builder, system strengthener, nerve invigorator. It stops skin eruptions, too, pimples, blackheads, acne, boils, eczema. It builds up run down, tired men and women, beautiful complexion again in the flesh-dresser. Start S. S. S. today. It is sold at all drug stores in two sizes. The larger size bottle is the more economical."

S. S. S. makes you feel like yourself again

FARMINGTON POSTAL BUSINESS TAKES A PHENOMENAL GAIN

Farmington, N. M., Oct. 18.—The quarterly report of the Farmington postoffice covering the months of July, August and September shows a remarkable business growth if the postoffice receipts is a barometer of business conditions as it is usually considered to be. The receipts of July this year were \$727 compared with \$424 for the same month last year. The receipts for August this year were \$1,452 compared with \$611 last year, while September this year shows \$2,545 compared with \$1,277 last year, thus showing an increase of a little over 100 per cent over last year for the same period. The heaviest months last year were October \$1,855, and November \$1,840, so that September this year is heavier than any month last year and the heaviest in the history of the postoffice at this place. The receipts for October, so far, show a proportionate increase. The postal receipts are running close to \$100 per day so far this month.

Until the emergency is past, congress might arrange to let us have a little coal on a doctor's prescription.—Richmond News-Leader.
